DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: claims are allowable at least for the reason that the prior art does not teach or reasonably suggest the plurality of adjusting means that having sensitivities different from each other, which change a relative gap in a sub-scanning direction of principal ray of the plurality of light beams incident in the second optical system as set forth in the claimed combination.

Itabashi (US 6,469,772 B1) discloses an multibeam scanning optical device (Fig. 1B) comprising two rays that are disposed at angle in the sub-scanning direction as B1 and B2, however, there are no plurality of adjusting means that having sensitivities different from each other, which change a relative gap in a sub-scanning direction of principal ray of the plurality of light beams incident in the second optical system as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
